Experienced ESET technicians with
a wealth of expertise to support your
business IT security

Progress. Protected.

The support you need

ESET Premium Support is designed to answer your queries promptly, resolve issues quickly and help you get the full potential of your ESET products.

- Premium Support ensures you get the maximum return on your investment in ESET products
- It reduces the complexity of your security management
- Your organization's operational continuity is ensured
- It covers the entire life cycle of each product, tailored to your specific environment
- With Premium Support, you can allocate security resources more efficiently

How you will benefit

NO MORE LEARNING CURVE

ESET products are designed to be intuitive and have comprehensive accompanying documentation. However, it's still possible that advanced features could be missed by your IT team or particular product settings misunderstood, which could prevent them from executing critical operations.

FASTER RESPONSE, FASTER RESOLUTION

ESET Premium Support delivers a guaranteed, 24/7 response to any incident affecting the smooth functioning of your IT environment.

ENSURING BUSINESS CONTINUITY

Deploying new products without any previous knowledge can be tricky even for organizations with dedicated security and IT teams. The deployment and/or upgrade of new products into live environments without the required expertise presents a serious business continuity risk.

A FAST-TRACKED RESPONSE

Get straight through to an ESET expert who knows your infrastructure and will be able to solve the issue quickly and effectively.

FINE-TUNING YOUR IT MACHINE

Purchasing and deploying hi-tech products unfortunately does not guarantee their seamless operation. Specific combinations of operating systems, hardware and software from different vendors may cause unexpected behaviors. Leave deployment to experts who can foresee clashes and incompatibilities and will take the right action quickly.

COMPLIANCE

Many industries have strict compliance rules which require products to be deployed by authorized vendors.
